### New York Stock Market

New York, N. Y., September 26.—
Frading in stocks was less turbulent to-day, and changes were less violent than during yesterday's upheaval. The tone of the market was distinctly stronger. A sharp break occurred in the early trading, and for a time it appeared as though another breathless plunge downward was imminent. But the market soon reacted, and during the remainder of the day ruled well above the low point.

It was apparent at all times that the demand was considerably enlarged. The change was pronounced during the last hour, when the market rose rapidly under the influence of spirited bidding. United States Steel rose 11-2 points above yesterday's close, and ended the day with a net gain of a point. The preferred agained 12-4 on the day. Reading, Lehigh Valley, Canadian Pacific and American Smelting closed a point or more higher, and the Harriman issues nearly as much. nearly as much.

Attorney-General Wickersham's statement of the government's attitude regarding enforcement of the Sherman law did little to clear the situation. Wall Street had hoped for definite information as to what was in store for the United States Steel Corporation, and expressed some disappointment because the Autorney-General was unable to disclose his intentions. The deduction was drawn in some quarters that the tenor of the state. In tindicated that a dissolution suit was to be filed, and the early break was ascribed largely to selling based on this theory. New Orleans, September 25.—Cotton futures opened steady at an advance of 253 points. The close was steady at a net advance of 453 points. The close was steady at a net advance of 453 points. The close were none too good, but shorts were heavy buyers to realize profus. After the call the buying increased, and although leading bears offered a great deal of cotton the inquiry was sufficient to absorb everything for sale and to keep the market advancing. Lighter receipts at Texas, parts and the fear that labor troubles would interfere with the movement of cotton to his market holped to put prices up. The market had a fairly good tone up to the middle of the morning when it stood 112 it points over yesterday's close. Here a report was received o the effect that an important foreign bank had suspended payments, and bears immediately stracked the market with redoubled energy. The weekly seather reports from the Weather Bureau with the favorable that expected, and revived hope in a bearish condition report from the government. In the afternoon session the mover was leady to huying by prominent buil interests, which began when prices were 12912 points under yesterday's close. # It Was Gratifying

"I sat down the other night at home and made a rough draft of my will, and in it the VIRGINIA TRUST COMPANY will be named Executor."

That is what a gentleman said to us the other day, and we were particularly pleased because he is a man who "does things"—that is to say, he is possessed of a keen judgment-has made a success of his own affairs-the corporation under his management has prospered, and he knows, as well as we do, that the VIRGINIA TRUST COMPANY will make a more satisfactory Executor than an individual.

We recently sent out 2,500 booklets telling about this business-and it is worth reading, if we do say so. Only about a dozen copies remain undistributed. Can we send one to you? A postal will bring it.
